Question 1.1.4 - The parametric form of the equation of AB is

$\mathbf{x} = \mathbf{A} + k\mathbf{m}$

(1)

2) Parametric form of line BC:

where,

$$\mathbf{m} - \mathbf{R} - \mathbf{\Lambda}$$

m = B - A(2)

is the direction vector of AB. Find the parametric equations of AB,BC and CA.

Solution: Given.

$$\mathbf{A} = \begin{pmatrix} 1 \\ -1 \end{pmatrix} \tag{3}$$

$$\mathbf{B} = \begin{pmatrix} -4\\6 \end{pmatrix} \tag{4}$$

$$\mathbf{C} = \begin{pmatrix} -3\\ -5 \end{pmatrix} \tag{5}$$

1) Parametric form of AB:

$$\mathbf{x} = \mathbf{A} + k\mathbf{m} \tag{6}$$

where,

$$\mathbf{m} = \mathbf{B} - \mathbf{A} \tag{7}$$

$$\mathbf{B} - \mathbf{A} = \begin{pmatrix} -4 \\ 6 \end{pmatrix} - \begin{pmatrix} 1 \\ -1 \end{pmatrix} \tag{8}$$

$$= \begin{pmatrix} (-4) - 1 \\ 6 - (-1) \end{pmatrix} \tag{9}$$

$$\implies \mathbf{m} = \begin{pmatrix} -5\\7 \end{pmatrix} \tag{10}$$

therefore,

where,

$$AB : \mathbf{x} = \begin{pmatrix} 1 \\ -1 \end{pmatrix} + k \begin{pmatrix} -5 \\ 7 \end{pmatrix} \tag{11}$$

$$\mathbf{x} = \mathbf{B} + k\mathbf{m} \tag{12}$$

$$\mathbf{m} = \mathbf{C} - \mathbf{B} \tag{13}$$

$$\mathbf{C} - \mathbf{B} = \begin{pmatrix} -3 \\ -5 \end{pmatrix} - \begin{pmatrix} -4 \\ 6 \end{pmatrix} \tag{14}$$

$$= \begin{pmatrix} -3 - (-4) \\ -5 - (6) \end{pmatrix} \tag{15}$$

$$\implies \mathbf{m} = \begin{pmatrix} 1 \\ -11 \end{pmatrix} \tag{16}$$

$$BC: \mathbf{x} = \begin{pmatrix} -4\\6 \end{pmatrix} + k \begin{pmatrix} 1\\-11 \end{pmatrix} \tag{17}$$

3) Parametric form of line CA:

$$\mathbf{x} = \mathbf{C} + k\mathbf{m} \tag{18}$$

where,

$$\mathbf{m} = \mathbf{A} - \mathbf{C} \tag{19}$$

$$\mathbf{A} - \mathbf{C} = \begin{pmatrix} 1 \\ -1 \end{pmatrix} - \begin{pmatrix} -3 \\ -5 \end{pmatrix}$$
 (20)
=
$$\begin{pmatrix} 1 - (-3) \\ (-1) - (-5) \end{pmatrix}$$
 (21)

$$= \begin{pmatrix} 1 - (-3) \\ (-1) - (-5) \end{pmatrix} \tag{21}$$

$$\implies \mathbf{m} = \begin{pmatrix} 4 \\ 4 \end{pmatrix} \tag{22}$$

$$CA: \mathbf{x} = \begin{pmatrix} -3 \\ -5 \end{pmatrix} + k \begin{pmatrix} 4 \\ 4 \end{pmatrix} \tag{23}$$
